ROLL UP LITE BLACK

A lightweight and economical free standing retractable display suitable for light infrequent use. Ideal for permanent display or single events, not suitable for regular use or graphic change outs. The unit comes in an attractive black metal finish with black plastic end caps. Suitable for all forms of substrate including laminated graphics, textiles and banner media. Easily transportable the Roll Up Lite Black comes in a fabric carry bag. See print template for salvage and graphic constructions.

CODE	WIDTH (MM)	HEIGHT (MM)	WEIGHT (KG)
DRU-LT0850B	850	2010	2.5

ROLL UP REGULAR

A robust and professional looking free standing retractable display. The unit comes in an attractive metal finish and is 50% heavier than our Roll Up Lite. The positive top clamp and adhesive bottom requires no special finishing to your graphic. Suitable for all forms of substrate including laminated graphics, textiles and banner media. Easily transportable the Roll-Up Regular comes in a fabric carry bag. See print template for salvage and media constructions.

MAXIMUM CHOICE

The key to making the right choice of roll up, L & X banner, or other display media type, is making sure the product meets your customers budget and quality expectations. That's where Aarque comes in. We have a wide range of solutions to meet every budget and occasion from low cost films to last just a few events to luxury fabrics that will last and last.

TOP MEDIA PICKS...

ALL ROUNDER

DURAPRO TEXTURED LIGHT BLOCK BANNER

Available Widths:
914mm, 1270mm

SKU: SOLLBLOCK180

Durapro Textured Light Block Banner is a 180 micron polyester banner ideal for pull-up banner displays. This film features a textured, anti-reflective bright-white front surface and a grey light block back.

It is scratch / water resistant and does not need laminating - although a cold laminate can be applied for extra thickness. The polyester base ensures dimensional stability is maintained with perfect flatness for the life of the pull-up.

DOUBLE SIDED

COLOURSURE 6043 FALCON BLOCK OUT PP PAPER

Available Widths:
914mm, 1270mm, 1524mm

SKU: SM-6043

Coloursure 6043 Falcon Block Out PP Paper is a 250 micron PP Block out film ideal for roll up displays, point-of-purchase, posters and trade show panels applications.

The double layer coating provides very good curl resistance and can be printed on both sides on Latex & UV printers.

ECONOMICAL

DURAPRO PET/PP SOLVENT BLOCK OUT BANNER

Available Width:
914mm

SKU: SOL62250

Durapro PET/PP Solvent Block Out Banner is a 250 micron resin coated PET & PP, making it an economical solution for creating pull-up banners.

While not an out-and-out polyester, the 100% blackout PET & PP base provides anti-curl properties and the satin finish reduces glare and improves colour density.

L BANNER PREMIUM

A robust and professional looking free standing "L" banner display. Lightweight and easy to assemble - an instant banner stand can be created in seconds. The positive clamping system top and bottom requires no special finishing to your graphic. Suitable for all forms of substrate including laminated graphics, textiles and banner media. Easily transportable the L Banner Premium comes in a fabric carry bag. See print template for salvage and construction options.

CODE	WIDTH (MM)	HEIGHT (MM)	WEIGHT (KG)
DBL-PREM0900	950	2170	3.5

L BANNER LIGHT

An inexpensive and basic lightweight free standing "L" banner display. Lightweight and easy to assemble - an instant banner stand can be created in seconds. Suitable for lighter substrates including films, textiles and light banner media. Easily transportable the L Banner Light comes in a light fabric bag. See print template for salvage and construction options.

CODE	WIDTH (MM)	HEIGHT (MM)	WEIGHT (KG)
DBL-LITE0850	850	2190	1.0

L BANNER SUPER WIDE

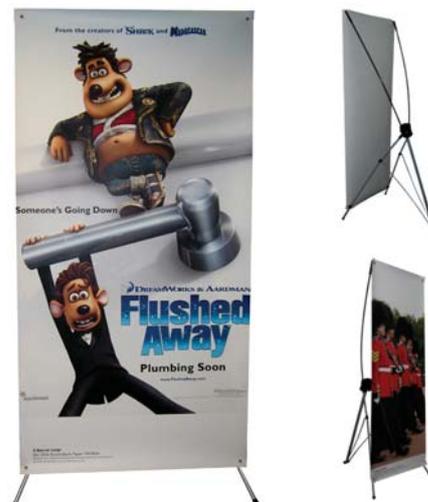

These units are made up of sections that bolt together to provide a wide display that measures 2.55 metres wide and 2.3 metres high. Ideally suited to textiles, the unit folds up into a carry bag that weighs only 7.5kg plus the graphic.

CODE	WIDTH (MM)	HEIGHT (MM)	WEIGHT (KG)
DBL-WIDE2550	2550	2300	12.5

X BANNER SMALL & LARGE

These units use a frame in the shape of an "X", held together at a hub in the middle (back) of the display. The "X" design gives you a tension rod at each corner of the display. The graphic has a grommet (reinforced hole) in each corner which fits over the tension rod. This type of display has several advantages. Firstly, the graphic itself is completely separate from the display hardware, so you can easily change graphics. Secondly, you can use a wide variety of medias for your graphic because it will be stretched taut from the corners by the tension bars. Media must be compatible with grommets. Finally, you can vary the size of your display by simply changing the shape of the "X".

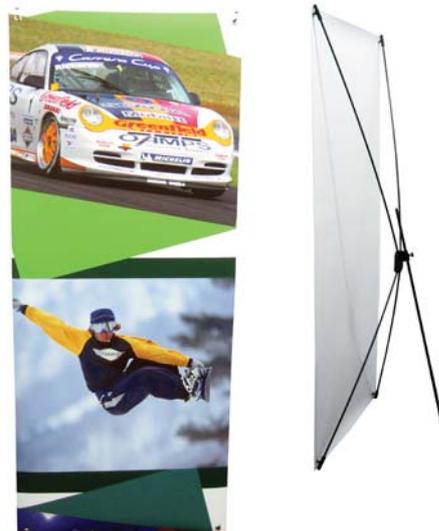

CODE	EXTERNAL (MM)	VIEWABLE (MM)	WEIGHT (KG)
XB-SMALL	500-600	1550-1600	1.5
XB-LARGE	800-1200	1800-2000	2.0

X BANNER LIGHT

A very light weight X-Banner designed for short term event use. These units use a frame in the shape of an "X", held together at a hub in the middle (back) of the display. The "X" design gives you a tension rod at each corner of the display. The graphic has a grommet (reinforced hole) in each corner which fits over the tension rod. Comes in a fabric carry bag.

CODE	EXTERNAL (MM)	VIEWABLE (MM)	WEIGHT (KG)
XB-LITE	500-600	1550-1600	1.3

SNAP FRAME - MITRE CORNER

Changing graphics in a frame has never been easier! Just snap open the spring loaded frame sides and replace your graphic. Attractive modern appearance with aluminium finish and mitre corners. Matt cover sheets are supplied to protect the graphic or you can use laminated graphics. Mounts on to walls or can be suspended using vertical or horizontal mounting holes. Depth is 18mm.

Standard Banner Rail Profile

Heavy Banner Rail Profile

BANNER RAIL

Our Banner Rail is a suspension banner rail in aluminium providing a classy and cost effective solution for displaying your graphics. Easy to use, simply snap open and snap shut at the top and bottom ends of your poster and then suspend from your ceiling or hang from your wall. Includes two U hangers for both wall mounting and ceiling suspension. The 1200 & 1500 widths are made of a heavier duty aluminium extrusion with a squarer profile and tighter clamp to hold wider posters. Supplied in a pack with a top and bottom rail.

MINI A-FRAME

The ultra portable Mini A-Frame display has a 600mm x 450mm image area on both sides and is so quick and easy to deploy and store. The Mini A-Frame folds completely flat for storage and the graphic area folds to the inside, protecting the graphic from damage while in transit. To deploy, simply fold one side over making an A shape, the weighted feet make the unit stable in light to moderate wind conditions. Ideal for use as temporary directional signs, real estate open home signs, coffee & food vans and sporting event signage.

CODE	WIDTH (MM)	HEIGHT (MM)	WEIGHT (KG)
AF-MINI	600	450	2

ROLL UP OUTDOOR DOUBLE

A robust retractable double sided display for outdoor applications. A heavy water tank provides stability and a hand grip and wheels provide for easy movement. The telescopic poles are attached to flexible flanges which allow for some movement in a breeze.

CODE	WIDTH (MM)	HEIGHT (MM)	WEIGHT (KG)
DRU-ODDBL0800	800	2000	16

NOTA FOOTPATH STANDS

The complete footpath sign solution. The NOTA Footpath stand consists of a black plastic base that can be filled with water or sand, and a 3mm or 4mm thick ACM board with a graphic area of 760mm high by 600mm wide. The total height of the NOTA footpath stand is 900mm making it compliant with most council sandwich board requirements. **Both base and board are sold separately.**

EZY POP UP COUNTER

Ezy Pop Up counter is a very cost effective portable counter solution that's ideal for trade show events, exhibitions and product promotions. The counter is very sturdy yet packs away quickly and easily in to two carry cases making it easy to transport.

CODE	WIDTH (MM)	DEPTH (MM)	HEIGHT (MM)	WEIGHT (KG)
DPC-PUCOUNTEREZY	800	400	940	12

POP UP COUNTER CLASSIC

The Pop Up Counter Classic is the ideal complement to your display for exhibitions, presentations, food and drink sampling, promotions and many other events. The hinged laminate wooden table top is used for counter display and storage is provided by the two internal shelves. The display is then completed by magnetically wrapping your branded graphic around the structure. Quick and easy to assemble, the pop up counter is lightweight and can be effortlessly carried in the display bag provided.

CODE	WIDTH (MM)	DEPTH (MM)	HEIGHT (MM)	WEIGHT (KG)
DPC-PUCOUNTER	1280	450	970	17

POP UP ABS COUNTER "THE LEMONADE STAND"

The Pop Up ABS Counter (otherwise known as the Lemonade Stand) is one of the most economical pop up counters available. Light weight, easy to assemble and incredibly sturdy, the ABS Counter is perfect for all retail POS and trade shows where a simple but stable temporary presentation work area is required.

With four large graphics areas (front, sides and pelmet) the ABS Counter makes an eye-catching display. Comes in a carry case and includes internal shelf and pelmet sign.

POP UP DISPLAY WALL

The Pop Up Display Wall is very easy to assemble, multiple panels create a seamless appearance through the use of magnetic locating strips. These units can be assembled in minutes without any special tools. Each Pop Up Display Wall comes complete with header strips, magnetic tape, PVC backing panels and two halogen lights. Straight profiles come with two feet to provide extra stability. All this fits into a rigid carry case on wheels and extending handle for complete protection and mobility. Available in 3x3 or 4x3 formats (3 centre panels plus 2 curved end caps or 4 centre panels plus 2 curved end caps) in either curved or straight profiles.

POP UP TEXTILE WALL

The use of textile graphics with the Pop Up Textile Wall allows the graphic to be permanently attached to the stand, making it very quick and simple to erect the frame, as there are no panels to hook up. Just remove it from the upholstered carrying bag, where it is stored and transported with the banner in position, pull it apart, and fasten the locking clips. It's just as simple and effortless to dismantle.

TEXFRAME SYSTEM

TexFrame is a highly modular framing system for printed textiles. A rubber tape is stitched around the perimeter of a printed textile graphic which locates into a channel in the aluminium frame.

Supplied either as an A1 or A0 kit or in individual lengths from 1 metre up to 3 metres. TexFrames are assembled in minutes with an allen key making graphic change outs quick and easy.

Three profiles are available: light single face, heavy single face and heavy double face. Accessories include top and bottom wall hangers and base supports. Frames can also be linked together with a connector mechanism.

BANNER UPS® BRAVOTABS

Banner Ups® BravoTabs are a great new addition to your toolkit - they are square in shape, so they work well both at corners and along banner edges – a “one size fits all” solution. They are faster to install than traditional grommets / eyelets – making them a cost effective replacement to traditional banner finishing systems. BravoTabs are crystal clear, allowing your colour graphics to shine through.

CODE	DESCRIPTION	UNIT
BU-BTC	Clear	Pkt 100

BANNER UPS® EDGETABS

Banner Ups® EdgeTabs are used along banner edges for additional support when additional fastening points are required. Also, due to their rectangular shape, EdgeTabs may be used on corners as a medium-duty, lower-cost alternative to large tabs. EdgeTabs can also be used to reinforce pop-up banner stand corners.

CODE	DESCRIPTION	UNIT
BU-ETC	Clear	Pkt 100

BANNER UPS® POWERTABS

Made of a high strength composite film, this unique banner finishing method allows sign shops to make strong, yet inexpensive banner blanks instantly. Banner Ups® PowerTabs are less conspicuous than grommets and blend into the banner substrate for a more pleasing visual effect. They are available in regular size for outdoor banners, mini size for indoor or light duty outdoor use. For outdoor banners over 2.5 metres, add PowerTape for ultimate strength.

CODE	DESCRIPTION	UNIT
BU-PTMC	Mini Clear	5 tabs
BU-PTSC	Standard Clear	Pkt 100

BANNER UPS® POWERPUNCH

Banner Ups® PowerPunch is a heavy duty hand-held punch capable of easily cutting holes in the thick banner material. It cuts cleanly through Banner Ups® PowerTabs, PowerTape, and heavy duty banner substrates. Due to its relatively small size and light weight it is completely portable and significantly lower in cost than benchtop grommet presses. The tool will cut substrates up to 4.5mm thick and is properly sized to make centre hole cuts in PowerTabs.

CODE	HOLE SIZE
BU-PP8	8mm

BANNER UPS® POWERTAPE

Banner Ups® PowerTape is a single sided banner hem tape that is made of a super strong film. Unlike ordinary double sided banner hem tapes, there is no need to fold a hem in the media to reinforce banner edges. Just apply Banner Ups® tabs on the corners, then apply a strip of tape along the top and bottom edge of the back of the banner, then punch holes through the tape, tabs and media with a Banner Ups® Power Punch.

CODE	DESCRIPTION	DIMENSION
BU-PTC38	Clear	38mm x 33m

BANNER UPS® TIGERTAPE

Banner Ups® TigerTape is a double coated polyester (PET) carrier film coated on both sides with a high deposition of a high tack acrylic pressure sensitive adhesive (PSA). A high-performance banner hem tape specifically designed for the most demanding bonding applications, Tiger Tape® provides a permanent bond on foams, plastics, metals, and composite materials subjected to a broad range of environmental conditions. Tiger Tape® is highly UV, temperature, and plasticizer resistant making it ideal for banner hemming applications.

CODE	DESCRIPTION	DIMENSION
BU-TIGTAPE25	Double-coated PET	25mm x 33m

BANNER UPS® STARTER KIT

Banner Ups® Starter Kit contains everything you need to to hang banners fast and easy! The Banner Ups Starter Kit is perfect for easy custom banner finishing. Kit contains enough for about 20 banners. The time saved making those 20 banner alone will more than pay for the cost of your starter kit!

CODE	CONTAINS
BU-SK1	100 x Banner Ups Clear BravoTabs 1 x 38mm x 33m roll of Banner Ups Clear PowerTape 1 x Banner Ups Power Punch

EASY EYELET SYSTEM

The Easy Eyelet range has everything you need to finish your banners using the traditional eyelet system. Easily insert eyelets into banners and displays with either the hand punch or the robust benchtop punch. Easy Eyelet punches will pierce through banner and synthetic paper with ease - even through Corflute.

KLINGTON™ BANNER CLIPS

Klinton™ Banner Clips are a revolutionary replacement for banner eyelets. Klinton™ are a unique banner holding system that is incredibly easy to use and you don't need special tools to fit them. Eliminate the need for hems and traditional eyelets / grommets!

CODE	UNIT
KLINGTON-20	Pkt 20

PICK N' HOOK FOR CORRUGATED PLASTIC

Pick N' Hook hangers can be used for hanging corrugated plastic virtually anywhere. Simply press the spike-end anywhere into the edge of the corrugated plastic substrate so that it penetrates across the corrugated plastic flutes, and then hang. We recommend at least 4 per 100mm X 200mm board .

CODE	UNIT
PICKHOOK-20	Pkt 20

TWIST N' HOOK FOR FOAM BOARD

Twist N' Hook foamboard hangers are a fast, easy, and inexpensive way to hang your foam boards. Simple to use, just screw the hooks directly into the core of your board from the top-hanging edge. For every 300mm to 600mm of board width you should add another hook for firm hold and stability. Add wire or string through the holes on the top of the hooks for hanging.

CODE	UNIT
TWISTHOOK-20	Pkt 20

BROCHURE HOLDER Z FOLD
