### CONSISTENT QUALITY—Produce high-value applications

- Deliver stunning prints with uniform colors via precise HP Pixel Control ink mixing and distribution.
- Achieve consistent quality across jobs and create color profiles with the HP Embedded Spectrophotometer.
- With HP Latex inks, print a wide range of signage and décor jobs, now with automated double-sided printing<sup>1</sup>.
- Expand into profitable new applications with the easiest white ink experience<sup>2</sup>, 30% faster<sup>3</sup> in underflood, 3 layers and 5 layers.

### SIMPLIFIED PRODUCTION—Optimize printing processes

- Reduce inventory management with universal printheads and the new 50% extended life maintenance cartridge<sup>4</sup>.
- Load media quickly and easily with spindle-less front-loading and save media by printing from the leading edge<sup>5</sup>.
- Reach production speeds up to 334 ft<sup>2</sup> (31 m<sup>2</sup>)/hour<sup>6</sup> and avoid waiting times with prints that dry instantly.
- Streamline your print workflow with our intuitive end-to-end software solution: HP PrintOS Production Hub.<sup>7</sup>

### LEAD THE WAY—Win with sustainable solutions

- Create a comfortable workspace<sup>8</sup> with odorless prints<sup>9</sup> and UL ECOLOGO®-certified<sup>10</sup> HP Latex Inks.
- Advance your sustainability journey with our unique HP PrintOS Sustainability Amplifier<sup>11</sup> software.
- Reduce plastic waste with returnable supplies via HP Planet Partners<sup>12</sup>—including new maintenance cartridge.
- Stand out in the market with the only EPEAT Climate+<sup>13</sup> registered printers in the signage industry.

### Messaging Footnotes

<sup>1</sup> Automated double-sided printing compatible with PVC-free media.

<sup>2</sup> Automatic White Ink Recirculation System between the HP Latex 832 Ink Mix and HP 832 White Latex Ink Cartridge. When not printing with white ink remove the white printheads from the carriage and store them in the offline rotation chamber, avoiding unnecessary white ink waste. White print modes (spot, underflood, overflood, 3 layers, and 5 layers) are available with white ink densities up to 260%.

<sup>3</sup> Faster white ink printing in underflood, 3 layers and 5 layers white modes compared to HP Latex 700 and 800 Printer series thanks to new drying system with extra drying capacity. Test conducted in January 2025.

<sup>4</sup> At least 50% more life thanks to a 40% longer cleaning cloth and new ink collection unit that uses 100% of the cleaning cloth compared to previous maintenance cartridge model.

<sup>5</sup> Printing from the leading edge is compatible with the following media categories: self-adhesive vinyl, canvas, and heat transfers. Compatibility with PET films, papers, and polypropylenes depends on media characteristics.

<sup>6</sup> Draft mode (4-pass, 4 color, 90% ink density). Based on internal HP testing in January 2025 on Avery 3001. Print speed may vary due to the adaptive printing mechanism to avoid image quality defects.

<sup>7</sup> For HP's large-format printers, HP PrintOS Production Hub is compatible with HP Latex printers and the HP Stitch Printer series. HP PrintOS Production Hub premium features are only accessible when purchasing an HP Professional Print Service Plus Plan.

<sup>8</sup> Based on odor sensory evaluation when printing with the HP Latex 630 series printer and Mimaki UJV 100-160. Tests done in a 57 m<sup>2</sup> room with 5ACH. Test conducted by Odournet following the standard VDI3882, where the HP Latex 630 series air quality were characterized, when Printing, as "neutral" for hedonic tone compared to the Mimaki UJV 100-160. HP Latex 730/830 printers are using the same inks and are in the same category as the HP Latex 630.

<sup>9</sup> Applicable to HP Latex Inks. Based on sensory evaluations conducted by Odournet, done according to VDI Guideline 3882 where 832 Inks were characterized as "weak" in odor intensity and "neutral" for hedonic tone. There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.

<sup>10</sup> UL ECOLOGO® Certified HP 832 inks meet a range of stringent human health and environmental considerations. For certifications, see [www.ul.com/EL](http://www.ul.com/EL) and [www.ul.com/gg](http://www.ul.com/gg)

<sup>11</sup> The HP Sustainability Amplifier program helps customers reduce their environmental impact through self-assessment, resources, and recognition with an HP badge, not an official eco-label. Recognition is subject to approval for credibility. Program is only available in English.

<sup>12</sup> Program availability varies. For details, see [hp.com/hprecycle](http://hp.com/hprecycle)

<sup>13</sup> The HP Latex 730 and 830 series is EPEAT Gold in the U.S. and Canada and has achieved EPEAT Climate+. See [www.epeat.net](http://www.epeat.net) for registration status and tier levels by country. As of January 2025, no other competitors in the signage market have been registered in EPEAT.
