AVERY DENNISON APPLICATION TOOLS

Avery Dennison is a global leader in vinyl graphic solutions and vehicle wrapping durable media. Their portfolio also includes an impressive collection of tools, cleaning aids and accessories to help clean, install and also remove old graphics as efficiently as possible.

AVERY SQUEEGEE PRO

SKU: SQPRO

A medium flex squeegee with one felt side. It is an effective tool for flat or slightly curved surfaces. A great choice for vehicle wraps and day-to-day applications like flat wall panels.

AVERY SQUEEGEE PRO XL

SKU: SQPROXL

A bigger version of the Squeegee Pro. Larger and more rigid, it is great for faster and high quality applications onto large flat surfaces such as truck sides, buildings and buses.

AVERY SQUEEGEE PRO FLEXIBLE

SKU: SQPROFLEX

A soft, flexible squeegee with a felt edge that will not scratch the surface of digital prints or speciality vinyl. Ideal for curved applications such as wheel arches and bonnets / bumpers.

AVERY SQUEEGEE PRO RIGID

SKU: SQPRORIGID

A rigid squeegee, specially designed for flat application of thick and rigid high performance products. It has a non-felt side, which easily slides over the surface of the film.

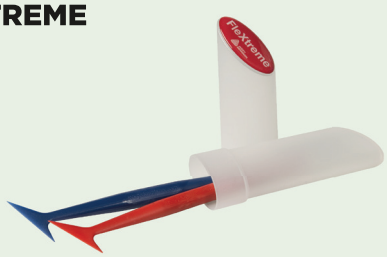
AVERY SQUEEGEE FELT

SKU: SQFELT

A soft flexible squeegee often used as an alternative to the Avery squeegee pro. Designed for flat and lightly curved surfaces for medium and low pressure applications. This squeegee is best used for highly contoured areas.

AVERY SQUEEGEE FLEXTREME

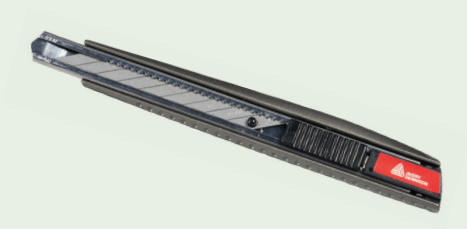
SKU: SQFLEXSTREAM



A micro-squeegee designed for vinyl graphic applications. The blue (harder) FleXtreme is designed to apply film at narrow curves and edges. The red (softer) FleXtreme is an excellent tool for application on narrow, concave parts of a car.

AVERY 30D KNIFE

SKU: KNIFE30D



Professional quality application knife with a strong, durable metal case that holds a 30° angled blade securely for accurate cutting. It offers robust control, with a casing that does not flex.

AVERY SPARE BLADES

SKU: ABLADES

The Spare Blades Box combines the functions of a dispenser and a disposable container, providing a safe place to snap off your blades. Supplied complete with 15 spare blades (30° blade angle).

AVERY SNITTY SAFETY KNIFE

SKU: AVERYKNIFE

A mini-slitting tool, used for fast and safe cutting/ trimming of self adhesive material. Supplied complete with blade refill.

AVERY AIR RELEASE PEN

SKU: AIRRELPEN

A sharp, retractable pin in a handy pen design. Designed to release trapped air and eliminate bubbles during application.

AVERY APPLICATION GLOVES PRO

SKU: AAPLGLOVEP

A high-quality glove engineered for breath-ability, heat resistance, while maintaining sensitivity needed for delicate executions. They're touch-screen friendly so you can access your devices.

AVERY APPLICATION MAGNET

SKU: AMAGNETS

Heavy duty magnets used for holding and positioning graphics. Featuring easy hold handles for repositioning, the magnets are used as an alternative to application tape. Sold individually.

AVERY TOOLBELT

SKU: ATOOL

A specially-designed waist belt that fits Avery Dennison tools. Keeps tools together in one place and allows for fast and easy access during application. A metal plate is inbuilt to hold magnets.

MEDIA CUTTING

CORO CLAW FLUTE CUTTER

SKU: COROCLAW

Easily cut or score along the corrugated flutes of plastic materials such as Corflute and Onyx Flute. The angled blade between two guide prongs and ergonomic handle makes it easier to cut full size sheets. Score cut without affecting the printed side to make an outside bend for POP stands or covers. To make an inside bend score cut along two adjacent flutes and remove the centre section with your Coro Claw. Also great for making boxes, containers or custom shapes for packaging.

Suitable for 4mm flute

BIDDI SAFETY KNIFE

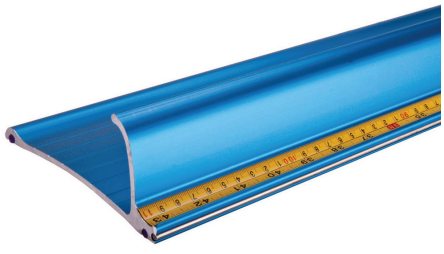
SKU: BIDDIKNIFE

Unique cutting head cuts both in a forward motion and backward motion without the need for a backing. The forward blade is used for making accurate cuts, in a straight line or curved. The back blade is used for making fast long cuts right off the printer. Ideal for vinyl wrapping, banner material, laminate or film. The blade is fully protected and will not cut into table top, laminator or printer.

EASY CUTTER ELECTRIC KNIFE

SKU: ECCUTTER

A handy cutting tool you can purchase for your business. Safely cut through fabric, paper, banner material, canvas, bubble wrap and much more with ease. Ideal for sheeting off heavy media and fabrics from printers or cutting out nested images from canvas. Save time and increase safety compared to using knives or traditional scissors.



SAFETY RULER

SKU: ECCUTTER

Designed to prevent cut fingers with a unique strong yet lightweight aluminium profile. Super wide base also ensures maximum stability and provides more room for your hand. A stainless steel cutting edge guarantees a straight cut and prevents your knife from cutting the aluminium. Non-slip rubber grips on the base enhances stability and prevents ruler from slipping and the large curved finger guard also reduces the risk of injury.

Available sizes: 1100mm, 1400mm, 1700mm & 2500mm

EUROPA LARGE FORMAT CUTTER

The Europa is a table cutter that guarantees a cutting accuracy of 1 mm. The unique multi cavity, single extrusion design is lightweight, portable and offers an inbuilt rigidity.

The cutting head features a magnetic blade magazine which accepts standard utility blades that can cut materials up to 20mm thick. Two full length silicon rubber grip strips fitted to the underside of each cutter aid clamping and help protect the surface of the material being cut. Supplied with 100 x utility blades, 1 x acrylic scoring blade & 45mm textile cutting wheel.

Available in 1500mm & 2500mm widths

NEMESIS INTEGRATED CUTTING SYSTEM

The Nemesis features a pair of integral lift mechanisms and a full length aluminium base that creates a fixed docking station that can be screwed to an existing work table. It guarantees clean and precise cuts on paper, cardboard and light PVC panels when used in conjunction with the Europa large format cutter. The cutters can easily be removed from the docking station for use elsewhere.

Available in 1500mm & 2500mm widths

NEOLT MANUAL ROTARY CUTTER WITH STAND

The manual cutter for every need. Suits the needs of small to medium digital print shops and photolabs. Easily trim lightweight paper, plastics, PVC banners and many other printed or non-printed materials up to 0.8mm thick. The cutting unit is stand mounted and is equipped with a rotating blade in hardened steel, stainless steel fixed blade and high transparency line sheet holder for a perfect positioning.

Available in 1500mm, 2000mm & 2500mm widths

SCIMITAR RIGID BOARD CUTTERS

Scimitar Board Cutters come complete with a stand and basket. Safely cut card and foam boards up to 13mm thick. Scimitar cutters are also great for cutting heavy duty PVC banner material and synthetic print media that other trimmers can sometimes struggle with.

Available in 1500mm & 2500mm widths

BANNERUPS® FINISHING

BANNER UPS® POWERTABS

SKU: BU-PTXX

Made of a high strength clear composite film, this unique banner finishing method allows sign shops to make strong, yet inexpensive banner blanks instantly. Banner Ups® PowerTabs are less conspicuous than grommets and blend into the banner substrate for a more pleasing visual effect. They are available in regular size for outdoor banners, mini size for indoor or light duty outdoor use. For outdoor banners over 2.5 metres, add PowerTape for ultimate strength.

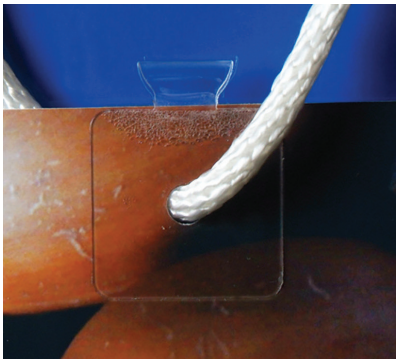
Available in standard (Pkt 100) and mini sizes (Pkt 5)

BANNER UPS® BRAVOTABS

SKU: BU-BTC

Banner Ups® BravoTabs are a great new addition to your toolkit - they are square in shape, so they work well both at corners and along banner edges – a "one size fits all" solution. They are faster to install than traditional grommets / eyelets – making them a cost effective replacement to traditional banner finishing systems. BravoTabs are crystal clear, allowing your colour graphics to shine through.

Sold in packets of 100

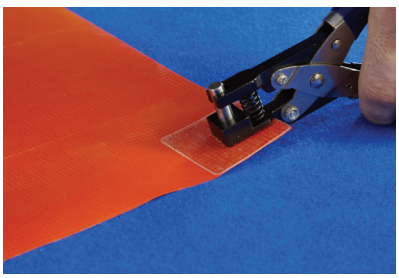


BANNER UPS® EDGETABS

SKU: BU-ETC

Banner Ups® EdgeTabs are designed to be used as a complement to the clear PowerTabs when additional fastening points are desired along banner edges and posters. Also, due to their rectangular shape, EdgeTabs may be used to reinforce pop-up banner stand corners.

Sold in packets of 100



BANNER UPS® POWERPUNCH

SKU: BU-PP8

Banner Ups® PowerPunch is a heavy duty hand-held punch capable of easily cutting holes in the thick banner material. It cuts cleanly through Banner Ups® PowerTabs, PowerTape, and heavy duty banner substrates. Due to its relatively small size and light weight it is completely portable and significantly lower in cost than benchtop grommet presses. The tool will cut substrates up to 4.5mm thick and is properly sized to make centre hole cuts in PowerTabs.

BANNER UPS® POWERTAPE

SKU: BU-PTC38

Banner Ups® PowerTape is a single sided clear banner hem tape that is made of a super strong film. Unlike ordinary double sided banner hem tapes, there is no need to fold a hem in the media to reinforce banner edges. Just apply Banner Ups® tabs on the corners, then apply a strip of tape along the top and bottom edge of the back of the banner, then punch holes through the tape, tabs and media with a Banner Ups® Power Punch.

Available in 38mm x 33m rolls

BANNER UPS® TIGERTAPE

SKU: BU-TIGTAPE25

Banner Ups® TigerTape is a is a double coated polyester (PET) carrier film coated on both sides with a high tack acrylic pressure sensitive adhesive (PSA). A high-performance banner hem tape specifically designed for the most demanding bonding applications, TigerTape® provides a permanent bond on foams, plastics, metals, and composite materials subjected to a broad range of environmental conditions. TigerTape® is highly UV, temperature, and plasticiser resistant making it ideal for banner hemming applications.

Available in 25mm x 33m rolls

BANNER UPS® STARTER KIT

SKU: BU-SK1

Are you ready to start making banners faster, stronger, and easier? Banner Ups Starter Kit includes everything you need to hang banners fast and easy. The Banner Ups Starter Kit is perfect for easy custom banner finishing. Kit contains enough for about 20 banners.

Kit contains: 100 Banner Ups Clear BravoTabs (most versatile tab), 1 roll of Banner Ups Clear PowerTape (38mm x 33m roll), and a Banner Ups EZ Punch (heavy-duty hole punch sized right to tabs)

MEDIA HANGING

PICK N' HOOK FOR CORFLUTE

SKU: PICKNHOOK-20

Pick N' Hook corrugated plastic board hangers are in inexpensive and clean way to hang and display your corrugated plastic boards. They are thin, so can be used with corrugated boards of any thickness without piercing the board face on the front or back, when inserted straight. They feature an arrow spike design that is simply stuck into the fluted side of the corrugated board, and then hung with a wire or string that is placed through a hole at the top of the hanger.

Sold in units of 20

TWIST N' HOOK FOR FOAMBOARD

SKU: TWISTNHOOK-20

Twist N' Hook foamboard hangers are a fast, easy, and inexpensive way to hang your foam boards. Simple to use, just screw the hooks directly into the core of your board from the top-hanging edge. For every 300mm to 600mm of board width you should add another hook for firm hold and stability. Add wire or string through the holes on the top of the hooks for hanging. The threading on these board hangers will hold tight into the board, while being narrow enough to not penetrate through the facing of the boards.

Sold in units of 20

KLINGON™ BANNER CLIPS

SKU: KLINGON-20

Klingon™ Banner Clips are a revolutionary replacement for banner eyelets. Klingon™ are a unique banner holding system that is incredibly easy to use and you don't need special tools to fit them. Eliminate the need for hems and traditional eyelets / grommets!

Sold in units of 20

EASY EYELET SYSTEM

SKU: ECEYLET & S-10EYELETSTEEL

The Easy Eyelet range has everything you need to finish your banners using the traditional eyelet system. Easily insert eyelets into banners and displays with either the hand punch or the robust benchtop punch. Easy Eyelet punches will pierce through banner and synthetic paper with ease - even through Corflute.

Hand punch and 10mm steel eyelets (pkt 500) sold separately

CLEANING & SURFACE PREP

AVERY ADHESIVE REMOVER SPRAY

SKU: AADHREM

A high performance cleaner designed to ensure that substrates are adhesive-free when graphics are removed. Can be applied directly to the substrate for thorough cleaning after graphic removal. Supplied in a pistol-grip spray bottle for easy and accurate targeting of adhesive residue.

500ml spray bottle

AVERY SURFACE CLEANER SPRAY

SKU: ACLEANER

A high-performance preparation spray that can be applied directly to the substrate for thorough cleaning prior to graphic application. Enables the removal of all kinds of residue in one single action, including dirt, wax, tectyl, light silicone, cock-pit sprays, and more.

1000ml spray bottle

AVERY SUPREME WRAP™ CARE POWER CLEANER

SKU: AWRAPCLEANERPW

Designed to keep Avery Dennison® vehicle films in peak condition. Avery Supreme Wrap™ Care Power Cleaner provides extra power to deal with difficult localised stains such as bird droppings, road grime, tree sap and much more. A professional grade product that is simple for anyone to use, they help matt, satin and gloss vehicle wraps cope with all the challenges of the road after leaving the workshop.

946ml spray bottle

ISOPROPYL ALCOHOL

SKU: IPAXX

If you ask any vinyl manufacturer or application expert what is the most common mistake people make in the vinyl installation process, you will get the same answer: inadequate preparation of the substrate's surface. Isopropyl alcohol is recommended to prepare surfaces for vinyl application. Other cleaning agents can affect adhesive on the film compromising the longevity of the installation.

4 litres & 20 litres (pictured) containers

CL-50 GLASS PREPARATION

SKU: NBONDGLASSPREP

Provides an extremely deep clean of glass substrates in preparation for priming and printing. CL 50 removes even slight mineral deposits, silicone and wax from glass surfaces. The low level of chemicals and the use of mostly plant extracts, give the CL 50 an outstanding sustainable rating. Recommended for use in conjunction with N-Bond glass primer.

250ml bottle

N-BOND GLASS PRIMER SACHET

SKU: NBONDGLASSPRIME

N-Bond-Glass Primer uses the latest technologies to enable UV inks to obtain superior adhesion on difficult to adhere surfaces, such as glass and ceramics. N-Bond is fast drying and can be printed on within 10 - 15 minutes, or up to 24 hours after the application (toughened glass and ceramic it is recommended to extend the curing time).

Supplied as wipes in sachet packs that cover up to 2m²

NITRILE DISPOSABLE GLOVES

SKU: PH410XX

Nitrile black disposable gloves are strong, durable, with excellent grip, Nitrile Blax PF offer outstanding chemical resistance, particularly when dealing with UV based inks and associated printer cleaning substances. Powder free and latex free.

Available in small, medium, large & extra large sizes

WYPALL X80 WIPERS

SKU: PH3004099

WYPALL X80 Wipers are extra strong, absorbent and bulky - ideal for heavy duty wiping tasks. They are compact and can be re-used for cost-effective wiping and can halve waste disposal costs. The self-dispensing box is portable, so wipers can be taken to where they are needed.

Wipers size: 31x42cm 150 wipers per case

3M™ VHB TAPES

3M Science. Applied to Life.™

3M™ VHB™ TAPE 5952

SKU: 3M5952

A thick black double coated acrylic foam tape with PE film liner. The modified acrylic adhesive on both sides bonds to a broad range of high, medium and medium/low surface energy substrates including metals, glass and a wide variety of plastics and paints, including many powder coated paints. The very conformable foam provides good contact between substrates even when they are slightly mismatched.

Recommended surfaces:

- Glass
- High surface energy plastic
- Low surface energy plastic
- Metal
- Paint
- Sealed wood

Sizes: 19mm x 13.7m & 19mm x 33mm

3M™ VHB™ TAPE 4910

SKU: 3M4910

A thick clear double coated acrylic foam tape with PE film liner. The general purpose acrylic adhesive on both sides bonds to a broad range of high surface energy substrates including metals, glass and easier to bond paints and plastics. The clear tape is good for bonding transparent or translucent materials or for applications where colourless is a benefit.

Recommended surfaces:

- Glass
- High surface energy plastic
- Metal
- Paint
- Sealed wood

Sizes: 19mm x 13.7m & 19mm x 33mm

3M™ VHB™ TAPE 4941

SKU: 3M4941

A thick grey double coated acrylic foam tape with paper liner. The multi-purpose acrylic adhesive on both sides bonds to a broad range of high and medium surface energy substrates including metals, glass and a wide variety of paints and plastics as well as plasticised vinyl. The conformable foam provides good contact between substrates even when they are slightly mismatched.

Recommended surfaces:

- Glass
- High surface energy plastic
- Metal
- Paint
- Plasticised vinyl
- Sealed wood

Sizes: 12.7mm x 33m & 25.4mm x 33mm

3M™ TAPE PRIMER 94

SKU: 3MVHBTAPEPRIMER94

Used to promote adhesion of 3M tapes to surfaces such polyethylene, polypropylene, ABS, PET/ PBT blends, concrete, wood, glass, metal and painted metal surfaces.

3M™ KNIFELESS TAPES

3M™ FINISH LINE

- Cuts most vinyl wrap films.
- Patented design turns easily in any direction to follow contours and curves.
- For single or multiple vinyl layer applications.

3M™ PERF LINE

- Cut laminated perforated window films and create a uniform relief cut along rubber moulding before applying edge-sealing tape.
- Can be used to bridge tight gaps and trimming.

3M™ BRIDGE LINE

- Used to achieve clean and uniform cuts in wide gaps between doors, fenders and rubber mouldings.
- For single or multiple vinyl layer applications.

3M™ DESIGN LINE

- Create striping, accents and designs.
- Stretches slightly and turns easily in any direction.
- For single layer vinyl applications.

3M™ TRI LINE

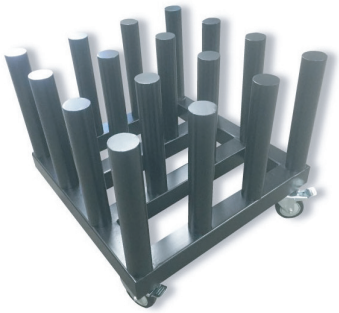
- Create pinstripes, gaps and butt seams.
- Using 6mm, 9mm widths or a combination of both.
- Stretches slightly and turns easily in any direction.
- For single layer vinyl applications.

3M™ SCOTCH® GREEN MASKING TAPE 233+

SKU: 3M233+GREEN

A premium quality tape that provides medium to high tack adhesion. Goes on quickly, easily, sticks at a touch, and stays put.

MEDIA STORAGE



MOBILE ROLL STAND HEAVY DUTY

SKU: RSCAR76

Rolls of media all over the workshop? Wastage because poor storage is leading to roll damage? Even worse, expensive printhead crashes caused by damaged rolls? Our heavy duty roll stand is robustly built from steel and mounted on four industrial castors, It can support 16 x 76mm core vinyl rolls through to heavy weight banner materials.

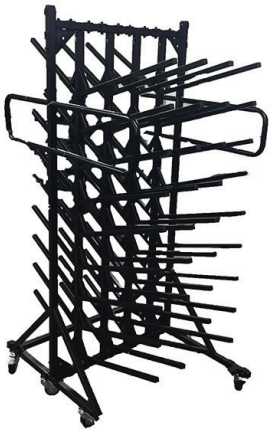
Holds 16 rolls with 76mm cores

MOBILE ROLL STAND LITE

SKU: RSCAR

Make untidy work spaces and toppling media rolls a thing of the past with our small core roll stand. Mounted on four castors, these roll stands hold 16 x 58mm core vinyl rolls and can be easily manoeuvred around your work space. Ideal for storing waterbased print media and thermal laminate films.

Holds 16 rolls with 50/58mm cores



MOBILE VINYL RACK

SKU: RSSTDL

Store all your small print media or coloured vinyl in one mobile location. Our mobile vinyl rack holds up to 72 rolls and is mounted on casters with handles on both sides for easy movement around the workshop. Will accommodated rolls up to 800mm wide.

Holds 72 rolls up to 800mm wide

MEDIA CLIPS

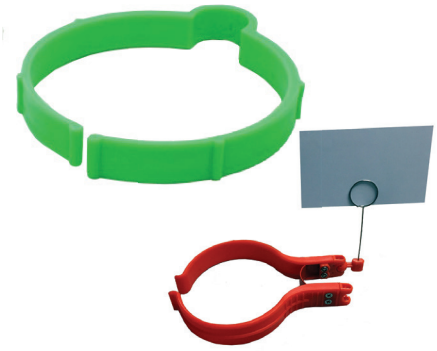
SKU: SC10 / SC10ID

Media clips help keep your media organised and prevent telescoping when manoeuvring rolls. Faster and easier than tape or rubber bands, our brightly coloured media clips will keep media wound tightly . Available in large and small sizes.

The large clip has a moulded finger hole that allows for easy fitting and removal. It is suitable for a full size rolls of vinyl and media.

The small clip is spring loaded and comes with a metal clip to attach a label for easy media identification. It is designed to work in horizontal or vertical racks and fits snugly onto any 3" core.

Sold in units of 10



ON-A-ROLL MEDIA LIFTER

SKU: MEDIALIFTER

Lift and transport large rolls of media with ease. The low profile roll lifter allows single users to manoeuvre heavy media rolls directly onto the printer. No pulling. No heaving. No hefting. In minutes, with no strain to the back, you can lift heavy or wide rolls associated with today's larger and faster print runs. Foot pump allows for smooth, effortless lifting within minutes.

Max. roll width 5000mm / max. roll weight 300kg

RACK & ROLL SAFETY DOLLY

SKU: RRDOLLY

Easily transport bulk loads of rigid stock around your workshop. The low profile dolly has a zero turn radius and four locking casters offering excellent manoeuvrability and even fits on most truck loading ramps. The interchangeable post system offers maximum flexibility to move almost any load on any flat surface, inside or outside.

Cart dimensions 762 L x 635 W x 220 H
