

POP BOARD HEAVY DUTY

FOAM BOARD ALUMINIUM LAYER

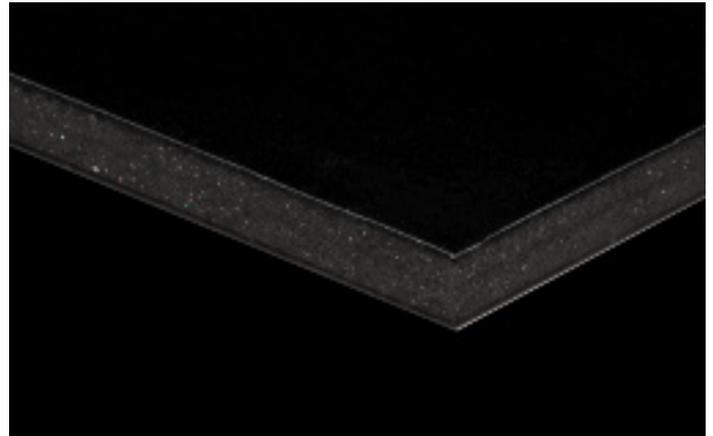

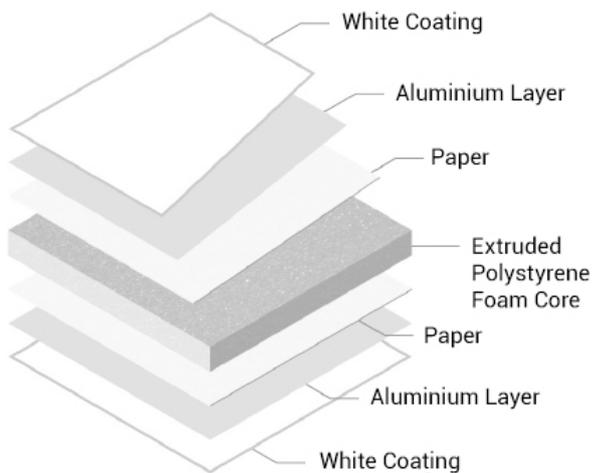

Product Overview

POP Foam Board Heavy Duty is a range of double-sided paper coated, extruded polystyrene foam core board with an aluminium layer on both sides. It is ideal for heavy-duty mounting and large format displays including point-of-purchase advertising, signage, models, exhibits, presentation and graphic arts which require added strength due to the size or nature of the display.

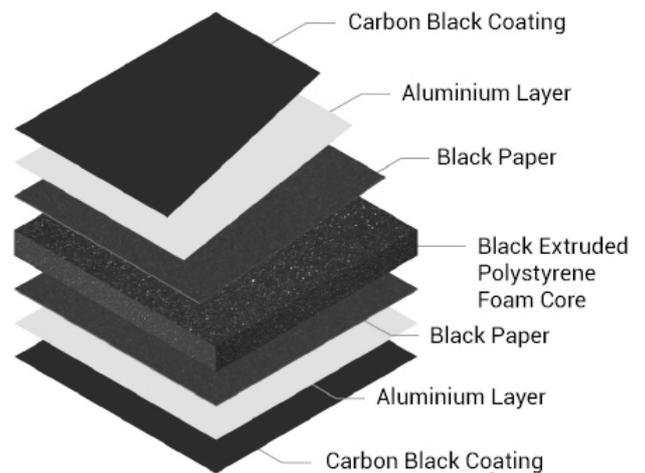

POP Board Heavy Duty White

Double-sided white coated aluminium layer on an extruded foam core with water resistant properties.

POP Board Heavy Duty Black

Double-sided black carbon coated aluminium layer on a black extruded foam core with water resistant properties.
