Durapro Satin Poster Paper / 200 gsm

DURASAT200

Durapro Satin Poster Paper 200 gsm is a poster paper ideal for advertising, promotions, exhibitions and POS. The multi-coated water-repellent surface produces high-quality images with good scratch resistance and rigidity for optimum handling making it a great "go to" heavier weight poster paper. Recommended for indoor applications.

Key Features

- ▶ Homogeneous printed image
- ▶ Water-repellent surface
- ▶ High stiffness and rigidity
- ▶ FSC® certified

Applications

- ▶ Indoor advertising
- ▶ Point of sale
- ▶ Posters

Handling Tips

- ▶ Please note when printing with any of the 300 series HP Latex printer, to print roll to roll.
- ▶ The ink amounts must be adjusted to the paper. Please reduce the single colours cyan, magenta, yellow and black (ink restrictions) and lower the maximum amount of ink (ink limit). This will help your costs on inks and improve your drying performance.
- ▶ Please follow the recommendations of the printer and ink manufacturer. The temperature for preheating and drying the media should be checked previously to make sure you achieve desired results.
- ▶ To maintain the high quality of the paper, it should be stored and converted in a climate of 30 – 65 % relative humidity and temperatures of 10 – 30°C (50 – 86 °F).
- ▶ Latex / IR hardening ink is not fully water-resistant.

Product Performance and Suitability: We believe the statements and information contained herein are accurate but are to be used only as general guidelines and are not warrants or guarantees. Because of the variety of possible uses, there is no warranty of fitness for a particular purpose. The buyer must test the suitability for each intended application before using. Aarque Group Ltd will not be liable for damages in excess of the purchase price of its products or for incidental or consequential damages. Should any failure to conform to this warranty appear within one year of the initial date of shipment, Aarque Group Ltd shall, upon notification thereof and substantiation that the products have been stored and applied in accordance with Aarque Group Ltd's standards, correct such defects by suitable repair or replacement without charge at Aarque Group Ltd's plant or at the location of the products (at Aarque Group Ltd's election): provided, however, if Aarque Group Ltd determines that repair or replacement is not commercially practical, Aarque Group Ltd shall issue a credit in favour of the buyer in an amount not to exceed the initial purchase price of the product from Aarque Group Ltd.
